**Senate Budget Committee Chairman Judd Gregg's Statement  
on House Consideration of Deficit Reduction Package**

"Last week the Senate took a significant and historic step toward reducing the deficit and strengthening the economy for future generations when it approved \$35 billion in savings and deficit reduction. I look forward to working with my colleagues in the House of Representatives to enact a final version of these savings. We owe it to future generations to follow through on decisions made in the Budget Resolution, so that they too can enjoy the benefits of a strong economy."
